Why Thru.

OUR FILE TRANSFER SOLUTIONS:

We are a cloud managed file transfer (MFT) company that offers automated file transfer and file sharing solutions.

No deployment
Leading to faster time to value

API-centric
Resulting in a modern architecture for a connected IT landscape

Usage-based pricing
Enabling more efficient use of budget

OUR PEOPLE

Our secret ingredient is smart, creative and hard-working people. Without the best people, our great products never would have been created... and continuously get improved to meet market requirements and expectations.

"It was an absolute pleasure working with Thru on this project. The level of technical expertise on your team and the speed at which the team has been able to deliver has been outstanding."
Dell EMC

"Throughout the evaluation process, the sales team have been very patient, helpful, worked with us and our partners and provided us with all necessary information as needed. Their post-sales service have also been very good."
Internal Consultant in Transportation/Trucking/Railroad (G2)

"The Thru team were quite helpful working in collaboration with us and providing case studies and other requested information in a timely manner."
Internal Consultant in Transportation/Trucking/Railroad (G2)

"Fast response to technical and account-related issues!"
Administrator in Information Services (G2)

OUR AWARD-WINNING PRODUCTS

"Cloud solution that covers most of the B2B MFT use cases. Really nice administration interface, with no coding and a self-service approach that saves a lot of time for operations teams. Easy to use, quick setup, no hidden costs. The best fit for iPaaS."
Florencia C

"From an IT perspective, we really have very limited involvement, which is exactly what we were aiming for."
Pioneer Energy Services

"By integrating with our Salesforce instance, we were able to automate link creation and sharing while maintaining reporting and security. An optimization win for Vocera and our customers!"
Vocera Communications

"Learning curve is very soft, no issues regarding both setup and service availability."
Pedro D

"We just push one button and our customers are able to come pick [software releases] up."
Liquibase (fka Datical)

"It's an intuitive solution. The beauty of Thru is that the complexity is masked behind the simplicity of the user interface … the inherent simplicity, rapid delivery and timing are definitely big drivers of why we chose Thru."
